

Balancing Profitability and Consumer Welfare

Cristobal Cerda M.

March 2019

Introduction

- 1 This is a numbered list
- 2 This second item in numbered list comes up on next click
- 3 The `vspace` command puts spaces between your items
 - Bulleted lists are also good
 - And you can set all the bullets to appear at once

Block (blue) and alertblock (red)

The `block` and `alertblock` environment makes these nice boxes that add emphasis
